

A NEW BREED.

Whilst some studs like the sound of their own name and talk about their business, we're more interested in growing yours.

When others are dining on their reputation, we're hard at work earning ours. We continue to make significant investments in top genetics from across the globe so we can provide you with the best outcomes for your operation.

Need the proof? Recently we purchased Twin Oaks R020 and Waitangi R257. Waitangi R257 has since been selected for the Angus Australia progeny test (one of only two NZ bulls) and the Beef and Lamb genetics progeny test.

We are a new name in Angus breeding. And whilst names are important, we prefer numbers that look forward rather than back.

If you want bulls bred for the future with sound structure and proven performance backed by impeccable data then give us a call.

We'd love to talk about how we can help you.
